An ASSA ABLOY Group brand

ASSA ABLOY

Manage your security via the CLIQ® Go App Anytime, anywhere

Do you recognise this situation?

Managing a business today means that you will be away from your desk, more than sitting in your office. While you are away, security needs change: new staff join, keys are lost, access rights need to be changed.

CLIQ® Go moves security to a new dimension, enabling you to control security anytime, anywhere.

The CLIQ® Go app takes access control to the cloud, so you can manage your security in your building from your mobile device.

Schedule access to your rooms, or give contractors time-limited access

If a key is lost, you can revoke access via the CLIQ® Go App

CLIQ® Go

The locking system that keeps your business on the move

- High security CLIQ® cylinders for all door types, battery in the key, low maintenance, no cabling

- The cloud-based system means that the CLIQ® Go app works seamlessly. As an option your locksmith can manage the system as a service

- CLIQ® programming devices for keys, available in desktop or mobile versions

Businesses do not stand still

Your security system is flexible

As your business grows, you can expand the system without disruption at the door

1 Your locksmith receives your request for new keys and cylinders and he can deliver new components very quickly

2 He programs new cylinders and keys in his office. You can view updates via the CLIQ® Go App

3 Installation is quick with minimal disruption at the door
