4 Panel screw

5 Battery charger

6 Magnet

In a plastic bag:

7 Cylinder + key & duplication card

8 M5 Mounting screw

1.2 Tools Requirements

• Small Phillips screwdriver
• Allen key #3

Note: Do not use power tools or any excessive force to assemble ENTR® parts.

1.3 Prior to Installation

⚠ **Warning**: Do not attempt to operate the unit until assembled on the door.

• Press & hold the knob (1) and turn slightly (2) until the cylinder cam is no longer protruding from the side of the cylinder body (drawing #1).

Drawing #1
1.4 Cylinder & Unit Installation

• Insert the cylinder (including baseplate & knob) from the interior side of the door.
• Once the cylinder is correctly aligned within the door, secure the cylinder in place using the M5 screw.
• Do not over tighten the screw or use power tools to do so.

Note: Do not hammer (or use any other excessive force) on the cylinder or knob when inserting them into the door.

• Turn the knob back to the zero position. Knob marks point upwards (drawing #2).

Note: The knob will jump out when returned to zero position.

Zero position
Drawing #2

1.5 Magnet Fitting

• Mount the magnet on the front panel of the door frame, as close as possible to the lock.

• The top point of the magnet should be approximately 20mm below the M5 screw (drawing #3).

• Use the supplied double-sided sticker to adhere magnet.

Note: The magnet area on door frame should be clean and free from dust, peeling paint etc.

Drawing #3

Door frame

Cylinder fixing screw (M5)

20

Magnet
1.6 Cylinder to Unit Assembly (optional)

Note: Follow the instructions only if the cylinder was dismantled from the door unit.

• Insert the operating key into the external side of the cylinder and turn one full turn.

• Take the key out.

Note: Verify that the gear is not pressed in (drawing #4).

Drawing #4

Gear not pressed in
- Verify the knob is in zero position. Knob marks point upwards (see page 6).
- Verify that the rectangle driver (cylinder) is aligned with the knob's rectangle bore. If required, turn the rectangle driver (cylinder) until it is in the same direction (drawing #5).

Driver

Knob back view   Knob back view
Drawing #5

- Assemble the cylinder into the door unit (baseplate & knob).
- Tighten the cylinder's mounting screw (drawing #6).

Note: Verify that the cylinder and the knob are engaged. Press the knob and turn. If the knob can not be pressed or turned, disassemble the cylinder, adjust the cylinder's projecting rectangle and reassemble.

Mounting screw
Drawing #6

- Connect carefully the data cable plug.
- Assemble electrical unit (drawing #7).
- Tighten the electrical unit's panel screw.

2. ENTR® Description

2.1 ENTR® User Interface

Knob

Indications

Touchpad

ON/OFF switch

✅	**OK (Green)**
ⓜ	**Manual Mode (Green)**
⌀	**Mute (Green)**
ⓘ	**Error (Red)**
▯	**Battery status (Green/Red)**
▯	**Door not closed (Red)**
2.3 ON/OFF Switch

• Turning the ENTR® lock **ON** or **OFF.**

2.3.1 Turning ENTR® ON

Before turning ENTR® **ON**, verify that the door is shut.

• Move the switch to the **ON** position. Make sure that the knob is in the zero position (drawing #8).

Zero position

Drawing #8

ON ← • → **OFF**
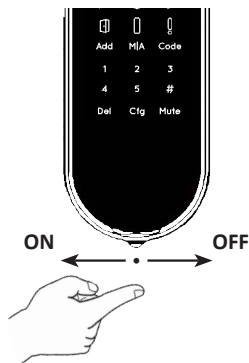

• Function and numeric buttons will blink all once.
• Hazard beep sound will be emitted and error indication will blink once.
• ENTR® is now in operating mode.

Note:

• After turning ENTR® **ON**, avoid touching the front panel until beep sound ends.
• After turning ENTR® **ON**, the door will be shut but not locked.

2.3.2 Turning ENTR® OFF

• Move the switch to the **OFF** position.

2.3.3 Low-battery Indication

Battery red signal rapidly blinking and 2 long beeps will be emitted during every lock/unlock action, indicating that the battery is low and needs to be charged.

MUL-T-LOCK®

2.4 Initialization of the Lock

Initiate the lock by touching the screen with the palm of your hand or fingers for 3 seconds.

- Programing buttons and battery status indication light will illuminate for 15 seconds, waiting for user's action.
- After 15 seconds of inactivity, ENTR® will idle.

2.5 Default PIN Code

The lock's default factory PIN code is: 1 2 3 4 5 #

Please note:

- Default PIN code must be changed before starting the configuration process.
- The PIN code must consist of 4-10 digits using numbers 1 through 5 in any sequence.
- Only the **Code** and **Mute** functions will operate until the default PIN code is changed.

⚠ **Warning**: Don't forget/lose the PIN code once changed, otherwise you will be locked out. Keep your new PIN code in a safe place.

3. Operation

3.1 Changing PIN Code

⚠ **Warning**: Do not attempt to operate the unit until assembled on the door.
1	2	3
Touch screen with palm or fingers for 3 seconds to active.	Press **[Code]** Numeric buttons illuminated.	Type **[Default PIN Code]** (1 2 3 4 5) ➡ **[#]**
4	5	6
[OK] indication blinks once. 1 long beep emitted, Illuminated buttons turn off.	Numeric buttons illuminated. Enter **[New PIN Code]** (4-10 digits) ➡ **[#]** For example: 1231234#	**[OK]** indication blinks once. 1 long beep emitted, Illuminated buttons turns off.
7	PIN Code match	PIN Code doesn't match
Numeric buttons illuminated. Reenter **[New PIN Code]** ➡ **[#]** For example: 1231234#	**[OK]** indication illuminated. 2 short beeps emitted. **New PIN Code is set.**	**[Error]** indication illuminated. 2 long Beeps emitted for 1 second. ENTR® goes to menu mode. **Restart the process from step 1**
3.2 Door Configuration

The door configuration process sets your lock and door preferences.

This process should be done after successful installation of the lock.

It will take 15-20 seconds to complete.

1

Important: Verify that the door is shut and no key is inserted into the cylinder during configuration steps.
2

Touch screen with palm or fingers for 3 seconds to active.

3.3 Pairing Remote Control
1	▦▶ 2	▦▶ 3

Touch screen with palm or fingers for 3 seconds to active.

Press **[Add]**

Numeric buttons illuminated.
Type **[PIN Code]** ▦▶ **[#]**
Numeric buttons blinking.

3 sec

4	▦▶ 5
Press **[1]** to add remote control.
Illuminated buttons turn off.
[OK] indication blinks for 15 seconds
waiting for remote control unit.
Press the remote control button.

Remote control button
Pairing OK	**Pairing failed**

[OK] indication blinks once.
2 short beeps emitted.
Remote control unit added.
**[OK]** indication blinks for 15 seconds.
No beeps emitted,
Start the process from step 1

Notes:

• To add more remote control units, repeat this pairing process.

• A remote control unit can be paired with one door unit only.

• It is possible to add up to 20 remote control units to a single door.

• Only an authorized dealer can reset a paired remote.

3.4 Deleting Remote Control

The deleting remote control process' will delete **all** remote control units including Touchpad and Fingerprint readers defined within the system.

1	⫸	2	⫸	3

Touch screen with palm or fingers for 3 seconds to active.
Press **[Del]**
Numeric buttons illuminated.
Type **[PIN Code]** ⫸ **[#]**
1 long beep emitted.

MUL-T-LOCK®

4	5	**Deletion accomplished**
[Del] blinks for 30 seconds.
Press **[Del]** to confirm.
[OK] indication blinks once,
2 short beeps emitted.
Illuminated buttons turn off.

3.5 Setting Sound Signal

Toggle the sound signal to **OFF** or **ON**

1	2	3

Touch screen with palm or fingers
for 3 seconds to active.
Press **[Mute]**
[Mute] indication illuminated.
Sound signal is off.

Notes:

- Setting the ENTR® lock sound to **OFF** will mute the lock and unlock sounds, and the open door hazard signal. It will not mute the touchpad, mechanical override and low-battery sounds.
- Follow the same procedure to toggle the sound to **ON.**

3.6 Setting Locking Mode

Toggle **Automatic** to **Manual** locking mode

1	2	3
Touch screen with palm or fingers for 3 seconds to active.	Press **[M|A]**	Type **[PIN Code]** ⟶ **[#]**

3 sec
4
[Manual] indication illuminated.
Notes:

• Setting the ENTR® lock to **Manual** will disable automatic locking.

• Follow the same procedure to set the ENTR® lock to **Automatic** locking.

3.7 Doorknob Operation

Push the knob (1) and turn clockwise or
counterclockwise (2) to unlock (drawing #11).
Beep sound emitted during doorknob operation.

Important! When an active lock is opened
by turning of the knob you must re-operate
it by one of its automatic modes (i.e remote,
phone, sliding your fingers, touch pad etc.)
or else it will remain **UNLOCKED**.
Knob operation is meant solely for
mechanical override in the rare event it will
not otherwise unlock.
Drawing #11

3.8 Slide Buttons Operation

Slide your fingers on the recessed grooves on both
sides of the ENTR® front panel (drawing #12):
• To open, slide fingers downwards on the recessed
  grooves on both sides.
• To lock, slide fingers upwards on the recessed
  grooves on both sides.

Open

Lock

7. Smartphone App

7.1 App Installation

- Android smartphone users: go to Google Play to download the ENTR® application. System requirements: Android 4.4

- iOS (iPhone/iPad) users: go to the app store to download the ENTR® application. System requirements: iOS 7.0 or higher

- Bluetooth low-energy compliant
The below message will be displayed when opening the ENTR® app prior to pairing it with your lock:

"There are no available locks or keys within range".

7.2 Pairing a Smartphone

This procedure is done via the ENTR® lock door unit.

1	2	3
Touch the **Door Unit** screen with your palm or fingers for 3 seconds to activate.	Press **[Add]**	Numeric buttons illuminate. Type **[PIN Code]** ▸ **[#]** Numeric buttons blink.

4
Press **[2]** to add a smartphone. **[OK]** indication blinks for 3 seconds. Illuminated buttons turn off ENTR® will be visible for 5 min.
Open the ENTR® app and follow the steps described in order to pair the smartphone with the ENTR® lock.

• Please pay attention that only one phone can be connected to the lock at the same time.

• A phone can have only one eKey per each lock.

ENTR® App User Manual is available for download at: **www.entrlock.com**

MUL-T-LOCK®

8. Remote Control Battery Change

8.1 Battery Removal

a. Release the lid by safely inserting a small tool into the notch (1),
   and press the lid clasp (2).

Notch

1

2

Clasp
b. Take out the push button
   and intermediate part.
c. Take out the electronic board with the battery and remove battery.
8.2 Battery Insertion

a. Insert new battery (CR2032) into the electronic board according to the "+" "-" signs (1).

b. Insert the electronic board into the remote control's housing (2).

1

2
c. Reassemble the intermediate part and the push button and place over the electronic board.
d. Place the lid and press until the clasp clicks into place.

Clasp

MUL-T-LOCK®
9. Sabbath Mode

Auto-locking and hazard beeps after knob operation are disabled. Battery indication LED blinks every 20 seconds.

4	Sabbath mode activated	Sabbath mode deactivated
Press **[5]** to toggle between activation and deactivation of the Sabbath mode.		
10. ENTR® Wire-free Charger

10.1 General

The "ENTR® Wire-free Charger" is used to charge the Door Unit on the door. The device is being charged by wired charger.
The charging of the Door Unit is done through a cable with micro-USB male connector.

10.2 First Time Use

1. Charge the "ENTR® Wire-free Charger" for at least 4 hrs to fully charge the batteries before using it for the first time.
2. After charging the door unit via the "ENTR® Wire-free Charger", disconnect the Wire-free charger and charge it using the provided charger for the Door Unit so that it will be ready for the next use. Li-ion batteries should not be left in a discharged state. Leaving Li-ion batteries in a discharged state can shorten battery life and can reduce battery capacity.
3. To maximize the Wire-free charger battery life, it is recommended to charge the Wire-free charger once in every 3 months if the Wire-free charger is stored for extended period of time.
4. Using a 12V system, the Wire-free charger and Door Unit charger are to be used for the ENTR products only.

10.3 Indications

In-Charge Indication

When the "ENTR® Wire-free Charger" is in charge mode the indication will blink green LED.

Fully Charged

When the "ENTR® Wire-free Charger" is fully charged and still plugged to a power supply the indication (green LED) is off.

Charging Mode

When the "ENTR® Wire-free Charger" is charging the Door Unit there is no indication. Indications shall be shown on the ENTR® Door Unit.

No Power (Low Power Battery)

When the "ENTR® Wire-free Charger" needs to be charged the indication will blink alternate red and green.

10.4 Door Unit Charging

Connect the micro-USB to the Door Unit and hang the Wire-free charger as shown.

Cable with micro-USB male connector

11. Troubleshooting

11.1 Limitations and External Influences

1. Door position sensor might be influenced by external electromagnetic interference.
2. After mechanical key operation, the user should unlock and lock the unit electronically.

11.2 Cases

New Unit Installation and Configuration		
Symptom	**Corrective action**	**Page**
The unit isn't accepting my administrative code.	Make sure the code you are using contains between 4-10 digits and is different from the "12345" factory code.	12
When I try to start the configuration (Cfg) process, I'm getting an error sound and light.	This could mean that the factory code hasn't been replaced with your administrative code. Go back and set your administrative code.	12
At the end of Step 1 of the configuration process, I'm getting an error sound	1. Verify that you are able to lock and unlock the door using the key without issue. 2. Please contact your locksmith	13
At the end of Step 2 of the configuration process, I'm getting an error sound	1. Verify that the magnet has been correctly positioned 2. Contact to your locksmith to replace the magnet with a stronger one.	13
I turn the knob, but the lock isn't unlocking.	1. Make sure that the mechanical key can operate the lock 2. Check that the electronic unit is properly attached to the cylinder. 3. Please consult with your locksmith/installer to ensure proper installation was completed.	6
I've configured ENTR®, but when I slide my fingers down, the door locks; and when I slide my fingers up, it unlocks -- opposite actions of what should happen.	1. Redo the configuration process. 2. Pay attention to the door's orientation, (Left = 1 and Right = 3).	13

Remote Control		
Symptom	**Corrective action**	**Page**
I'm having trouble pairing the remote control.	1. Please confirm that the LED on the remote control is ON when you press the button. 2. Repeat the pairing process again while standing closer to the door unit. 3. If after these steps are taken and pairing still isn't working, please contact your locksmith / installer.	16
Sometimes the remote control doesn't open on the first attempt.	The remote control operates on RF signal, so you need to be within a certain proximity to the lock. Get closer and try again.	16

MUL·T·LOCK®

Constant Usage

Symptom	Corrective action	Page
ENTR® has started double beeping whenever I lock or unlock the door.	This is an indication your battery is low; it's time to charge the door unit.	31
The unit has started to beep constantly.	1. Place the knob in the zero position. 2. Please consult your locksmith or installer.	20
Sliders aren't responding as expected.	Turn the unit off, wait for 3 seconds, and then turn it back on to reset it.	20
The touch panel isn't responding as expected.	Turn the door unit off and wait for 3 seconds. When turning the power back on, avoid touching the front panel until the unit beeps.	12-19
The latch isn't moving fully into position.	1. Pull/push the door toward the frame and observe if the problem is solved. If so, consult your locksmiths to adjust the door or lock case. 2. Verify that the lock is operating smoothly when manually using the key.	6
When I lock or unlock the unit, an error sound occurs.	Please consult with your locksmith / installer to adjust the door or lock case.	6
The power adaptor is not charging the door unit.	Make sure you are using the dedicated ENTR® power adaptor that was supplied with your lock. Standard 5V power adaptors **WILL NOT** charge the unit.	31
When i fully open the door the knob is touching the wall	Place a doorstop at correct position to prevent the door from opening too widely and damaging the knob or nearby wall.	

Fingerprint/Touchpad Reader

Symptom	Corrective action	Page
I'm having trouble pairing with the wall reader.	1. Repeat the pairing process until you hear double beep from both the door unit and the wall reader. 2. In some cases, if there are electro-magnetic interferences, there may be a need to repeat the pairing process several times until pairing is completed.	22
I'm having trouble pairing the wall reader with the door unit.	Set the door unit to pair mode, by pressing Add+Code+1, then immediately set the wall reader to pair mode. You'll have a 30 second window until the door unit reverts back to standby mode.	22
The wall reader's blue LED is blinking, but the door unit isn't responding.	Verify that the wall reader is paired to the door unit by redoing the pairing process -- you will hear double beeps from both devices when completed.	25
The touchpad isn't accepting the PIN code I'm entering.	1. This specific code already exists within the device's memory. 2. Make sure that the PIN code is 4 - 10 digits.	25

Symptom	Corrective action	Page
I have replaced the batteries, but when I press on "5", nothing happens.	You need to first power-up the wall reader by pressing and holding the "#" button for 5 seconds.	27
My 5-year old son and his grandmother's fingerprints are no longer working with the fingerprint reader.	Both children and the elderly have fingerprints that change. If this occurs, you'll have to repeat the fingerprint learning process for them. Alternatively, they can use a PIN code.	30
The fingerprint Touchpad keys aren't functioning properly.	Please go to Setting mode --> Device --> Device, in order to get the product version. Contact your locksmith / installer for further information and next steps.	6

Mobile App		
Symptom	**Corrective action**	**Page**
The ENTR® mobile app is disconnected from the door unit and/or I can't find my lock on the app.	1. Make sure your phone is compatible with bluetooth 4.0, and that your phone model and OS version are approved for ENTR®. 2. Refresh the app. 3. Only one phone can connect to ENTR® at the same time. It's possible that another user's phone is already connected to ENTR®. If so, close the app on any other user's phone. 4. Close the app, turn off your phone's Bluetooth. Then turn Bluetooth back on, and open the app. 5. Turn the door unit off, and then turn it on again.	38
I've updated the OS on my mobile phone, but the ENTR® app still isn't working properly.	If you are a lock owner, uninstall and then re-install the app. Then go to My Locks in the app and choose lock recovery. Use your owner password to recover the lock. If you are a user, please ask the lock owner to issue you a new key.	38
I'm unable to complete the 'Set Owner' process because I can't scan the QR on the ENTR® package.	1. Verify that you have a working internet connection. 2. Try to enter the unit's serial number manually (IFEU000xxxx...). 3. Open a ticket on www.entrlock.com.	38
I have created a key for a new user, but the user doesn't see that the key is available even though the user is within the lock's Bluetooth range.	1. As only one phone can connect to the lock at the same time, please make sure you have closed your app. 2. Verify that you completed the key creation process by selecting the "active" button. 3. Verify that the new user did not exceed the expiration time you have set for this key.	38
I'm unable to open the door from a distance of 10 meters / yards	1. The app works via a Bluetooth connection, which can be impacted by the environment. 2. For both security and functionality reasons, the ideal operating distance should not exceed 5m from the door 3. Try moving as close as possible to the lock.	38
I'm getting strange error messages and/or the app crashed during operation	Verify that you are using a supported mobile device and OS for ENTR® app.	37

MUL-T-LOCK®

LIMITED WARRANTY

Mul-T-Lock® hereby warrants, to the end user ("**Purchaser**") who purchased the genuine Mul-T-Lock® product ("**Product**"), from an authorized Mul-T-Lock® dealer ("**Dealer**"), that the Product will be free from defects in materials and workmanship ("**Defects**"), for a period of one year from the date the Product was purchased from Mul-T-Lock®'s authorized dealer. Subject to the terms and conditions indicated below, Mul-T-Lock® will repair or replace such Product or part thereof which, upon inspection by Mul-T-Lock®'s authorized dealer, is found to be defective, despite the Product not having been subjected to Improper Activity (as defined below).

Improper Activity shall render this warranty void. "Improper Activity" includes any and all of the following: installation by anyone other than a Dealer: improper installation; use/operation/maintenance other than in accordance with Mul-T-Lock®'s instructions and requirements (as directed below); tampering by Purchaser; neglect; damage by the application of force; bending; breaks; cracks; scratches; any other act of vandalism; repair or alteration by anyone other than a Dealer: use of keys, key blanks, cylinders, locks, approved batteries, accessories and/or other components that are not suitable and genuine Mul-T-Lock® products; all the foregoing as determined by Mul-T-Lock®, in its sole judgment.

Some basic instructions and recommendations for correct use of the Product are shown overleaf.

Mul-T-Lock®'s sole obligation under this limited warranty is to repair or replace, at Mul-T-Lock®'s sole discretion, at the venue of a Dealer, any Product and/or Product component found by Mul-T-Lock® to have Defects. This limited warranty does not grant any other rights or give rise to any other obligation, or absolve Purchaser of the responsibility to employ any other suitable measures, by whatever means, including insurance, against the risk of personal injury or damage to property. This limited warranty relate to product's defects only.

In order to facilitate the warranty service and enable Mul-T-Lock® to determine entitlement under this warranty, Purchaser must first return the Product, with proof of purchase from a Dealer, to Mul-T-Lock®, either directly, or through the Dealer from whom Purchaser purchased the Product. All shipping, handling, travel, service call and/or other incidental and/or related charges are fully payable by Purchaser only and are not included in this limited warranty.

THE USE OF OTHER THAN SUITABLE, GENUINE MUL-T-LOCK® COMPONENTS MAY CAUSE SEVERE DAMAGE TO THE PRODUCT, AND WILL VOID THIS LIMITED WARRANTY. THIS LIMITED WARRANTY MAY NOT BE ASSIGNED OR OTHERWISE TRANSFERRED IN ANY WAY AND MAY NOT BE EXTENDED, ALTERED OR VARIED.

TO THE FULLEST EXTENT ALLOWABLE BY THE LAWS APPLYING HERETO, THIS LIMITED WARRANTY IS IN LIEU OF ANY OTHER WARRANTIES, EITHER EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO ANY WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, ALL OF WHICH ARE EXPRESSLY EXCLUDED AND DISCLAIMED. MUL-T-LOCK® WILL NOT BE LIABLE FOR LOSS OF PROFITS, ANY SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES, WHICH PURCHASER MAY SUSTAIN, OR PUNITIVE DAMAGES, EVEN IN THE EVENT OF NOTICE OF THE POSSIBILITY OF SUCH DAMAGES.

ENTR®

KEY FREE. BE FREE

Some Basic Instructions and Requirements for Correct Use of ENTR® Products

Protection of Keys:

- Keys should be used only for their original purpose, of operating the corresponding cylinder.
- Your key carries a code. Make sure you keep it concealed.
- Only genuine Mul-T-Lock® key blanks should be used.
- Duplicate keys must be performed by an authorized Mul-T-Lock® locksmith on Mul-T-Lock®'s key cutting machine.
- Keys must be inspected periodically and must be replaced when show physical wear.

Cylinders:

- Installation must be performed by an authorized Mul-T-Lock® dealer only.
- Cylinders must not be submerged in water, or exposed to any chemical wash, or be painted.
- Protect the cylinder from dirt & dust.
- Protect your cylinder from exposure to extreme temperatures. (External -20 C to +80C, Internal -10C to +50C).
- The cylinder's keyway should be lubricated at least once per year (preferably using lubricants authorized by Mul-T-Lock®, or light machinery oil). In any heavy use environments, extreme weather conditions, lubrication must be conducted every three months.

LEGAL NOTICES

Mobile phones

ENTR® warranty should not cover any problem related with end user mobile phone/ smartphone or its operation system, by connecting to ENTR® lock or installing ENTR® application. For any other limitation please refer to End User licence agreement.

Items excluded / limited from this warranty

• Screws
• Normal wear and tear
• Cleaning with cleaning detergents
• Warranty for ENTR®'s Main battery is limited for 1 year

Trademarks

Mul-T-Lock® and ENTR® are trademarks/trade names belonging to Mul-T-Lock® Ltd. No unauthorised use may be made of these trademarks.
No Insurance
No security product can ever guarantee the safety of assets. The ENTR® product is by no means a substitute for suitable insurance coverage protecting against loss or damage of your property. Mul-T-Lock® is not an insurance company and does not provide insurance services of any kind.

External Influences

• Services are subject to various external influences, outside our control, such as satellites and cellular or other communications networks, and may also be influenced by weather conditions, frequency jamming/interference, improper use or activity, interference, vandalism, destruction etc.
• Services may also be adversely affected, or rendered impossible when the ENTR® product is located in places where a signal may not be available - for example, a garage, parking lot, tunnel or other such location.
• The fingerprint sensor may not work for certain members of the population, for physiological reasons

Limitations of Services and Liability

The Services will not always provide an accurate picture of whether or not assets have been subject to unauthorized access - for example, if the ENTR® product is accessed using the original key or a duplicate key.
• Proper functioning of the ENTR® product may be impaired if the ENTR® product is not installed and maintained properly, in accordance with the instructions provided with the ENTR® product. Installation and/or disassembly must be carried out only by authorised ENTR® installation personnel.
