

# CLIQ<sup>®</sup> Go

Access control at your fingertips

MUL-T-LOCK<sup>®</sup>

**Anytime,  
anywhere**

With the CLIQ® Go app,  
you keep your business  
secure on the go

## Manage your security via the CLIQ® Go App Because your business is changing constantly

### Do you recognise this situation?

Managing a business today means that you will be away from your desk, more than sitting in your office. While you are away, security needs change: new staff join, keys are lost, access rights need to be changed.

The CLIQ® Go app moves security to a new dimension, enabling you to control security in your building from your mobile device.

Schedule access to your rooms, or give contractors time-limited access

As your business grows, you can expand the system without disruption at the door

If a key is lost, you can revoke access via the CLIQ® Go App

CLIQ® Go takes access control to the cloud, so you can manage your security anytime, anywhere

In a busy world, you need security systems that are flexible, leaving you to focus on growing your business

## It's so easy to manage lost keys ...

Lost keys are a serious security risk.  
With CLIQ® Go, you can revoke access rights anytime, anywhere

1  
Your receptionist informs you about the lost key

2  
You revoke the lost key in real-time with the CLIQ® Go App wherever you are

3  
The receptionist programs a key to revoke access rights at the door

## How does it work?

CLIQ® Go app

Cloud based  
CLIQ® Go

Manage your system with the CLIQ® Go app

1. Select the user key
2. Revoke access rights for lost key and generate a new key with access rights (e.g. schedule & door) or change access rights for existing key
3. Optional: Programme the key directly with the programming device on the run

## ... and change access

Access needs can change very quickly, and you need to react fast. CLIQ® Go allows you to manage access in real-time

1 Your employee needs access to a new door and calls the manager

2 You change access rights of the key in real-time via the CLIQ® Go App, wherever you are. The employee then simply updates the key at the reception

3 Your employee is granted the access she needs, with minimal fuss

# Businesses do not stand still

As your company grows, you need to know that your security system is flexible

1 Your locksmith receives your request for new keys and cylinders and he can deliver new components very quickly

2 He programs new cylinders and keys in his office. You can view updates via the CLIQ® Go App

3 Installation is quick with minimal disruption at the door

## How does it work?

Cloud based CLIQ® Go

Your locksmith compiles CLIQ® keys and cylinders and will add them to your system in the cloud

Your locksmith installs CLIQ® devices at the doors

# CLIQ® Go

The locking system that keeps your business on the move

- High security CLIQ® cylinders for all door types, battery in the key, low maintenance, no cabling, long life time of 200.000 cycles

- CLIQ® programming devices for keys, available in desktop, wall or mobile versions

- The cloud-based system means that the CLIQ® Go app works seamlessly. As an option your locksmith can manage the system as a service

Receive updates of new keys and cylinders automatically in your CLIQ® Go PC application
