MTL™300

The complete locking solution

Offering affordable enhanced protection

MTL™300 brings together functionality and advanced patented protection at a highly affordable price.

Ideal for both residential and small to medium sized business customers, this is a locking system that integrates with various locking products and provides a variety of keying options and master key capabilities that will address their diverse needs.

Features & Benefits

- Patented key protection until 2033 for guaranteed legal protection against unauthorised key duplication
- Keyed-alike and master keyable for added convenience
- Wide range of cylinder and padlock types and sizes to fit every application
- Quick and easy to pin and assemble, using the same key machine and pinning kits as Mul-T-Lock's previous patented platforms
- Bespoke key inserts to promote your business
- Flat reversible key with variety of key options from nylon head, nylon head with key inserts, all metal and anti-bacterial

Resistant to:

6 Solid Pins 7x7 Pinning System

MTL™300 Telescopic Pin

MTL™300 Cut

Complete Range of Keying Options

MTL™300 offers a variety of keying options together with a master keying hierarchy for different locking products and environments.

Construction

Provides access to multiple doors with a common key, then instantly switches to unique combinations when necessary, rendering the common key useless once construction is completed.

Master Key System

Assign various levels of access for different key holders.

Keyed Alike

Access multiple doors with a single key.

Emergency

Operated with keys inserted and rotated on opposite sides, enabling both sides to be permanently operational.

3 in 1

Instantly change a lock's combination up to 2 times by simply turning a key.

Break Secure

Designed to snap off when attacked, leaving the main portion of the cylinder intact and fully functioning.
