# eCLIQ – Your electronic key to digital access

Life is easier when you just CLIQ®

Is your access ready for what's ahead?

We help you digitalize and future-proof your buildings, meeting your individual needs and supporting your move from the mechanical to the digital world. We are experts in access.

With us, you digitalize with confidence.

People come and go through buildings like never before

The need to manage access has evolved beyond security

New demands and challenges have arisen:

Security
- Stop the security threat caused by lost keys
- Monitor access and events
- Boost cybersecurity
- Provide a safe workplace for staff and visitors

Convenience
- Issue users with intuitive credentials
- Simplify access and security management
- Work smarter with cloud management

Flexibility
- Make better use of offices and other workspaces
- Enable efficient, agile workflows

Cost efficiency
- Save time and money wasted dealing with lost keys
- Reduce ecological footprint and improve sustainability performance
- Define a concrete ROI for security enhancements

Trust a global leader to show
you smarter technologies

With eCLIQ you can secure and manage all access points digitally, to keep your people and assets safe.

It is convenient, flexible and cost-efficient – bringing peace of mind to everyone.

How your organization benefits from eCLIQ

Control your building

- You decide who goes where, and when, by issuing access for each user or cancelling it with a click
- Time-limit access rights and resolve lost key issues quicker

Save money

- No more cylinder changes because of lost keys
- Improved workflows through flexible access management
- CLIQ integrates with existing third-party software (e.g. Genetec, Lenel and Traka), offering system management flexibility

Save everyone's time

- No more managing multiple keys and keycards, changing compromised locks or searching for a keyholder
- One key opens all access points for greater user convenience
- No more physical key handovers as access rights can be changed via Bluetooth

Upgrade site security

- Quickly eliminate any threat from lost keys, audit cylinder or key use anytime, and set automatic time limits for a user's access rights

Protect everywhere

- Cable-free cylinders for every application, to secure doors, gates, cabinets and more
- Users carry one programmable key for all their access points

Fit fast and wire-free

- Swap an existing mechanical cylinder for an eCLIQ cylinder with one screw and no drilling
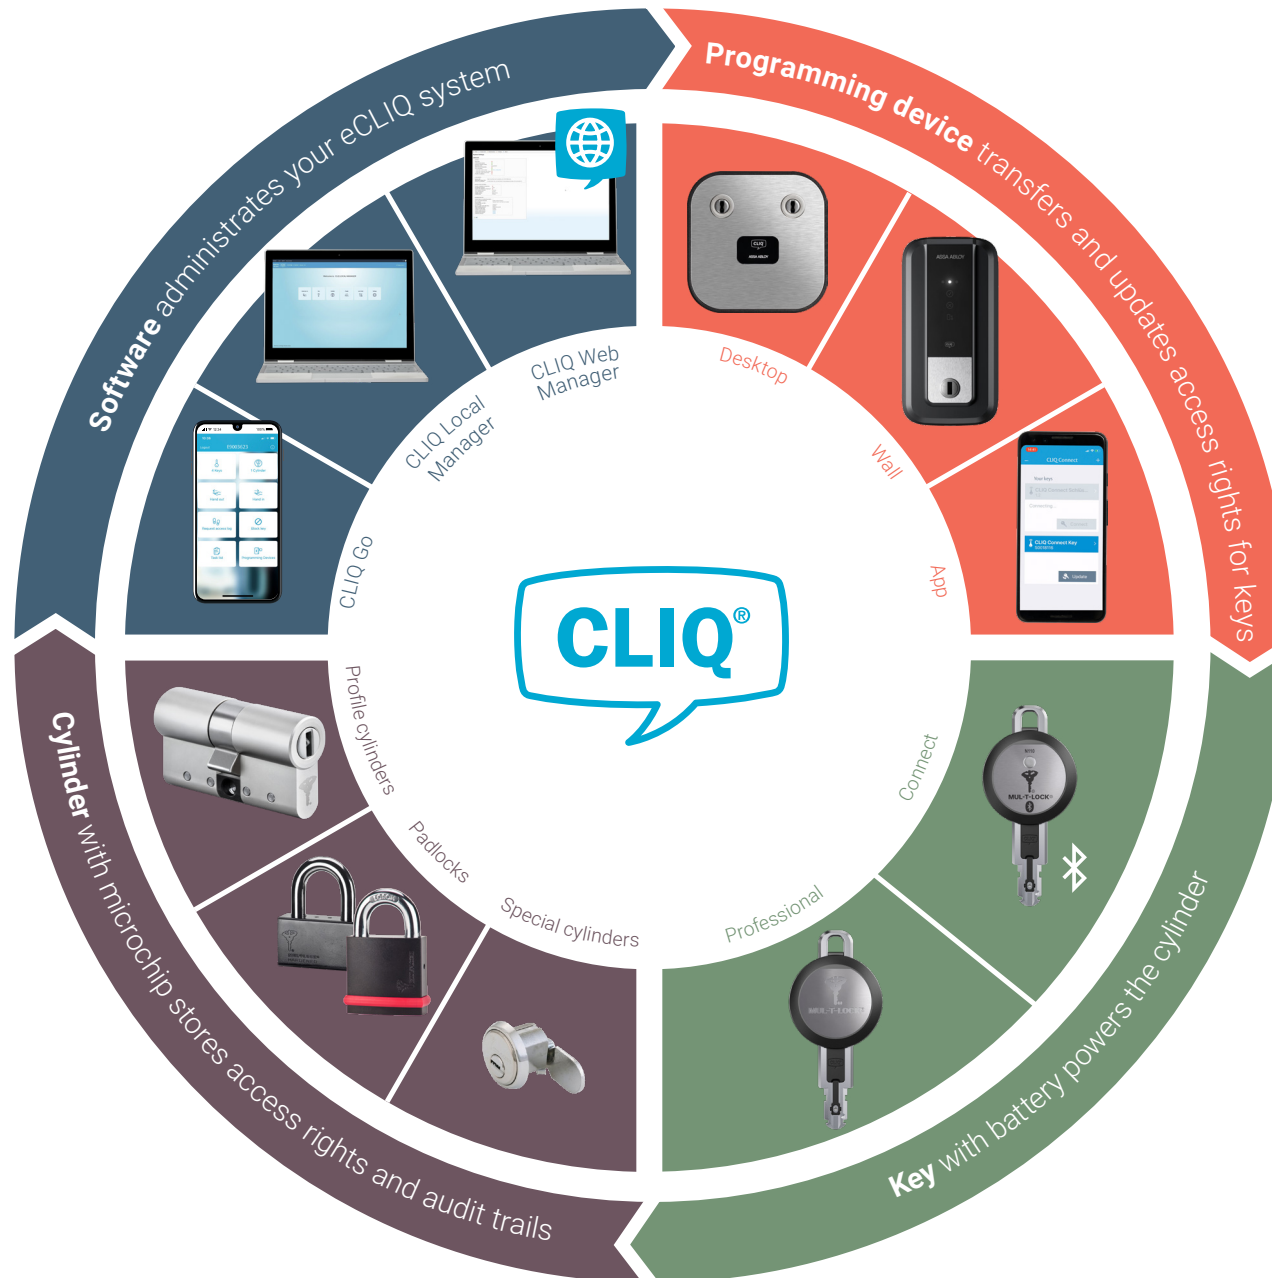

Be energy-efficient

- Power is supplied via an easy-to-change standard battery with a typical 10-year lifespan* inside each key

*excluding Connect key

The 4 elements of your eCLIQ system

Software

Whether you run a small business with few access points, or your requirement is larger with more people involved, our software solutions make it easy to manage your system

Cylinders

A wide range of battery-free cylinders and padlocks lock all your access points, such as interior and exterior doors, gates, cabinets, lockers, alarm systems and more

Programming devices

A range of programming devices enables you to configure the system to meet the needs of different users and applications

Keys

A range of programmable smart keys ensure each user has a key that suits their workflow – access rights can be updated instantly as requirements change

Software administrates your eCLIQ system

Programming device transfers and updates access rights for keys

Key with battery powers the cylinder

Cylinder with microchip stores access rights and audit trails

Software

Three software options to manage your eCLIQ system

- A choice of software options for managing your eCLIQ system is available for any size of business
- Options include smartphone, hosting onsite and SaaS via the Cloud
- Integrations with third-party software available with CLIQ Web Manager
- Manage schedules for individual users and cylinders, audit trails, update access rights of user keys via the desktop, mobile or wall programming device
- Two-factor authentication enhances user security

Choose the right management software for the job

	CLIQ Go	CLIQ Local Manager	CLIQ Web Manager

Maximum number of cylinders	< 70	3,000	>300,000
Creation of customized user groups		✓	✓
Admin software installation	Cloud	Local	Local, Cloud
Integration with 3rd party systems			✓

CLIQ Web Manager is integration-ready.
You can build your own using our APIs or deploy a pre-existing integration for:

C·CURE 9000   Genetec   LENEL:S2   traka ASSA ABLOY

eCLIQ provides convenient ways to update everyone's access

Programming Devices

Update and activate keys wherever you are

- Acts as the secure data transmitter between CLIQ management software and programming key
- Choice of programming devices available to suit your business needs (desktop, wall or app)
- Anti-vandal rated external wall programming device available (weather ratings IP65 and IK09 vandal-proof)
- Grant and revoke key access rights remotely via wall programming devices or a smartphone

Choose the right key programmers for the job	Desktop Programming Device	Wall Programming Device	App
Secure communication between key and programming device	✓	✓	✓
Power supply	USB	12–24V mains or PoE	
Optimized for centralized management	✓		
Optimized for decentralized management		✓	✓
Compatible with all eCLIQ keys	✓	✓	✓
Safe for use outdoors and protection against dripping water		✓	
Bluetooth connectivity			✓

The battery inside an eCLIQ key lasts
10 years on average* and is easy for
anyone to replace – no tools needed

*excluding Connect key

Keys

The right key for the job – whatever it is

- Fully electronic with only one key profile
- 2 keys with many variations open all eCLIQ cylinders
- Access rights can be updated remotely using the Connect key and app, saving additional car journeys to collect or update keys
- Power is supplied via an easy-to-change standard battery with a typical 10-year lifespan* inside each key
- Withstands any weather conditions and extreme environments (water- and dust-proof to IP67, ATEX standard)
- Battery covers with RFID chips available for all keys

*excluding Connect key

The electronic contact between keys and cylinders transmits power and data securely

Compact, programmable key with LED and acoustic signal

Keys and cylinders can be programmed with flexible access rights with validity periods

Fast, easy standard battery replacement in the key – no need for tools

Choose the right key for the job	Professional	Connect
10-year battery life (approximately 100,000 operations)	✓	2 years
Dust- and weather-proof (IP67)	✓	✓
Convenient LED feedback	✓	✓
Additional sound feedback	✓	✓
Update access rights by desktop, wall or a mobile	✓	✓
Update access rights via app/Bluetooth		✓
Unlock doors, cabinets, elevators, machines, gates and more	✓	✓

The keys come with different features, such as access authorization, time/schedules/revalidation, audit trails or directly programmable, depending on the type of key.
Fitting an eCLIQ cylinder is quick and easy – no wires makes it the ideal choice for retrofitting
Cylinders

Secure, reliable...
and beyond doors

- Fully electronic cylinders – also available in shorter lengths

- More than 60 eCLIQ cylinder types, including padlocks and cam locks

- Simply swap an existing mechanical cylinder for an eCLIQ cylinder with just one screw change

- No drilling and no wires makes them the ideal choice for retrofit or installation in historic buildings

- Maintenance-free for up to 200,000 cycles due to an innovative integrated lubricant depot inside each cylinder

Cylinders are easy and quick to install, no cabling is needed

New future-proof eCLIQ chip generation with AES encryption and rapid processing speed with efficient energy management

These customers – and many more around the world – rely on eCLIQ

Office & Enterprise

World Trade Center Amsterdam needed to electronically secure more than 1,000 doors and opted for the wire-free, easy-to-install eCLIQ system

Multi-residential

GWW Wiesbadener Wohnungsbaugesellschaft in Germany was looking for an easy-to-install, digital solution to secure the entrances, communal and technical doors of all its residential buildings and found it in eCLIQ

Industry & Utilities

Electricity supplier **K&F Drack** in Almtal, Austria chose eCLIQ for its flexibility in installation and use, as well as for its low maintenance requirements

Entertainment & Culture

Humboldt Forum Museum in Berlin, Germany needed a flexible solution to support differing room usage. eCLIQ offered a very high standard of security and simple access authorisation management

Healthcare

Installing eCLIQ on the **NHS Raigmore Hospital** site in the UK meant that facility managers had a detailed overview of who was accessing rooms, which is essential for hospital security

Public facilities

The commune **Saint-Jacut-de-la-Mer** in France faced growing security management difficulties for their municipal buildings, so unified and simplified access with eCLIQ
