

MUL-T-LOCK®

SMARTAIR®
Your Access. Your Control.

Toughness and technology work together

SMARTair® i-gate, the new electronic IP68 padlock

Experience a safer
and more open world

Add electronic access control - offline or wireless online - to almost any non-standard opening

For exterior, non-electrified gates and fences, interior closets, cupboards and cabinets and anywhere currently secured by padlock.

Real-time control and monitoring

Managed by any of the SMARTair systems, the new SMARTair i-gate padlock can be integrated, controlled and monitored, in real time, from the TS1000 software.

Compatible with all forms of intelligence

The SMARTair i-gate padlock offers a new way to open up — using a smartphone and the Openow mobile app as well as RFID credentials. RFID reader with LED (blue/red) shows different warning signals.

IP rating of 68: dust and liquid resistance

The SMARTair i-gate padlock is a device improved in every way. Its stainless steel shackle makes it more resistant to attack. The external black cover is completely watertight and protects against any weather.

Easy, drilling-free installation & maintenance

Quickly swap any existing padlock with the easy to install, battery powered (60.000 cycles) i-gate padlock.

Remote opening and audit trail

i-gate is capable of tracking who gained access and when.

SMARTair includes:
